

Jermantown Road Bridge over I-66: Widen to Four Lanes

- Location: Fairfax County
- Anticipated Completion: December 2022
- Requested Funds: \$11.0M

- Project Description:
 - Replaces the existing two-lane bridge with a four-lane bridge over I-66 instead of two-lane bridge replacement currently scheduled to be performed as part of the I-66 project.
- Project Benefits:
 - Enables the future widening of Jermantown Road between Phoenix Drive and US 50 (by others) to increase capacity for all modes of travel.
 - Better serves existing and future demand headed towards the Route 123 interchange at I-66, and facilitate better movement of traffic to and from the new I-66 Express Lanes ramps at that location.
 - Reduces congestion, moves more people, and increases travel options.
 - Eliminates the need for future disruption to I-66 users if the bridge is widened later.
