

I-66 Median Widening at US 29 in Centreville

- Location: Fairfax County
 - Anticipated Completion: December 2022
 - Requested Funds: \$40.0M
- Project Description:
 - Provides a wider median in Centreville area from west of Route 28 through the US 29 interchange and to the planned future rail station location, a distance of approximately 5,000 feet.
 - The I-66 overpasses above US 29 would be rebuilt and lengthened/raised to address clearance issues. US 29 would be widened to 3 lanes plus full-width sidewalks or trails in each direction beneath the bridges.
 - Project Benefits:
 - Project will accommodate the future WMATA Orange Line extension to Centreville, and eliminate disruption to Express Lanes in the future at this interchange.
 - Reduces congestion on US 29, and provides pedestrian/bike connectivity.
