The Route 28 Interchange is being rebuilt as part of the Transform 66 Outside the Beltway Project. Route 28 South traffic will be shifted to a new bridge on or about October 13, with demolition of the remaining old Route 28 South bridge planned to begin on or about October 15.

Demolition is anticipated to take approximately 12 to 15 nights, depending on weather and other factors. Work is planned to begin with three to four nights of deck removal, followed by beam removal. Find updates on upcoming work at outside.transform66.org/route28.

- Demolition of the remaining old Route 28 South bridge deck is planned to occur during the overnight hours of Friday night, October 15, through Sunday night, October 17. Demolition involves breaking up the concrete deck using jackhammers, saw cutters, and hoe rams.
- Steel bridge beams will then be removed during the overnight hours.
- Demolition work that occurs over I-66 travel lanes must be completed during overnight hours when multiple lanes of I-66 can be closed for the safety of workers and the traveling public.
- Demolition work that does not occur over I-66 travel lanes will be completed during daytime hours, whenever possible.
- All demolition work is weather dependent and will be rescheduled if inclement conditions occur.

Demolition of Remaining Old Route 28 South Bridge (cont.)

- Following the demolition of the concrete bridge decks and removal of the steel beams, the bridge piers and abutments along I-66 East and West will be demolished.
- Demolition of bridge piers and abutments will be completed during daytime hours.

Minimizing Impacts to Neighbors:

**Some demolition activities will generate unavoidable noise and other impacts. When those activities occur, measures will be taken to minimize impacts as much as feasible.**

- Concrete will be hauled away to be processed off-site
- Work area lighting will be directed toward roadway/away from residences
- Dust control measures will be in place
- Construction vibration and noise will be monitored

Updates on progress and upcoming activities will be posted to outside.transform66.org/route28 as demolition proceeds. Visit the web page to sign up for project updates and e-mail notifications about traffic pattern changes and lane closures.
