

## Traffic Changes at I-66 and Route 29 Interchange in Centreville Starting On or About October 28, 2019

The I-66 bridges over Route 29 in Centreville are being rebuilt to make room for the new footprint of I-66 and the future widening of Route 29. These improvements require a series of traffic pattern changes and detours during construction. Starting on or about Monday, October 28, 2019, drivers should expect the following traffic changes:

- The loop ramp from southbound Route 29 to I-66 West will close. Drivers will access I-66 West by turning left at the traffic light using two new left turn-only lanes to join the existing ramp from northbound Route 29 to I-66 West.
- Drivers traveling north on Route 29 to the ramp to I-66 West should be alert for traffic entering the ramp from the left/east.

This traffic pattern will be in place for approximately 18 months.
