**Pre-construction Property Condition Surveys**

FAM Construction, LLC, a joint venture company of Ferrovial Agroman US Corp. and Allan Myers VA, Inc., is the design-build contractor for the I-66 Outside the Beltway Project, and is conducting pre-construction condition surveys of properties located within approximately 100 feet of the project corridor.

The surveys are intended to document existing conditions of homes and properties located near the project corridor prior to the start of construction and are completely voluntary on the part of the homeowner. The preconstruction condition surveys are part of FAM Construction's proactive steps to help nearby residents prepare for upcoming project construction, and to minimize construction-related impacts. If you received a letter from FAM Construction offering a preconstruction condition survey of your property, it is not an indication of whether right of way will be acquired. Right of way acquisition is a separate matter and is being communicated in other correspondence.

If you need more information or have questions or concerns about the survey, please contact Nancy Smith of FAM Construction at [nsmith@fam66.us](mailto:nsmith@fam66.us) or at 703.349.7423. To speak with a VDOT representative about the survey, please contact Michelle T. Holland at [michelle.holland@vdot.virginia.gov](mailto:michelle.holland@vdot.virginia.gov) or at 703.259.3378, or [Tyler.Clendenin@vdot.virginia.gov](mailto:Tyler.Clendenin@vdot.virginia.gov) or at 703.691.6729.
