

Demolition of Old Bull Run Drive Bridge over I-66 Scheduled to Begin on/about Saturday, March 7

Demolition of the old Bull Run Drive bridge over I-66 is scheduled to begin this weekend. Demolition of the portion over I-66 West (Span 2) is planned for overnight hours this Saturday, March 7, and demolition over I-66 East (Span 3) is planned for the following Saturday, March 14. This work must occur during overnight hours when multiple travel lanes can be closed on I-66. Demolition of bridge abutments and spans not over the roadway (Spans 1 and 4) will occur during daytime hours. The three remaining bridge piers will be demolished during overnight hours at a later date. *Work is weather dependent and will be rescheduled to the following Saturday(s) if there is inclement weather.*

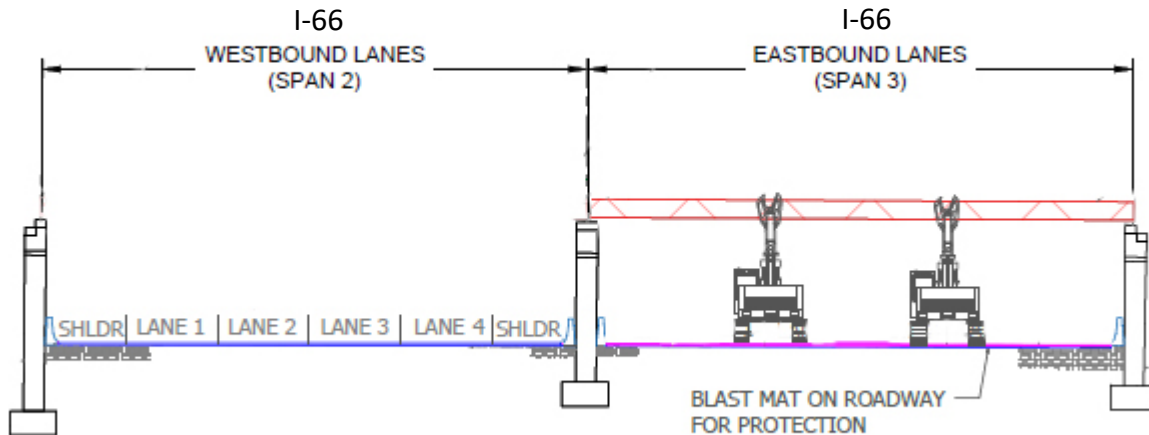

Demolition over I-66 West (Span 2) Planned for Saturday, March 7

- Bridge demolition will occur Saturday night, between 10 p.m. and 8 a.m.
- Nearby residents will hear construction noise, as demolition involves use of jackhammers, saw cutters, and hoe rams
- I-66 under Bull Run Drive will be reduced to a single travel lane in each direction running along I-66 East between 9 p.m. and 8 a.m.

Demolition of Old Bull Run Drive Bridge over I-66 Scheduled to Begin on/about Saturday, March 7

Demolition over I-66 East (Span 3) Planned for Saturday, March 14

- Bridge demolition will occur Saturday night, between 10 p.m. and 8 a.m.
- Nearby residents will hear construction noise, as demolition involves use of jackhammers, saw cutters, and hoe rams
- I-66 under Bull Run Drive will be reduced to a single travel lane in each direction running along I-66 West between 9 p.m. and 8 a.m.

Minimizing Impacts to Neighbors

Some construction and demolition activities will generate noise or other impacts, but when those activities occur, measures will be taken to minimize impacts as much as feasible.

During Demolition:

- Thick rubber mats will be used to dampen drop noise in closed travel lanes
- Noise will be monitored during overnight demolition operations
- Lighting will be directed toward roadway
- Dust control measures will be in place
