

Demolition of Bridge Abutments For Old Route 28 Bridge Over I-66 to Begin On or About December 11, 2021

The I-66/Route 28 Interchange is being rebuilt as part of the Transform 66 Outside the Beltway Project. The old Route 28 South bridge deck over I-66 and center piers were demolished earlier in fall 2021. Demolition of the remaining bridge abutments is planned to begin on December 11 and is anticipated to take approximately eight nights of work. Find updates on upcoming work at outside.transform66.org/route28

- Demolition the old Route 28 bridge abutments is planned to occur during the overnight hours beginning on or about Saturday, December 11, and is anticipated to take approximately eight nights of work to complete, depending upon weather and other factors.
- Demolition of the abutments involves breaking up concrete using jackhammers and hoe rams.
- Due to the proximity of the abutments to the roadway, much of the demolition work will take place during the overnight hours (typically between 11 p.m. and 5 a.m.) when multiple travel lanes on I-66 can be closed for the safety of workers and the traveling public. Work will occur during daytime hours when feasible.
- All demolition work is weather dependent and will be rescheduled if inclement conditions occur.

Minimizing Impacts to Neighbors:

Some demolition activities will generate unavoidable noise and other impacts. When those activities occur, measures will be taken to minimize impacts as much as feasible.

- Concrete will be hauled away to be processed off-site
- Work area lighting will be directed toward roadway/away from residences
- Dust control measures will be in place
- Construction vibration and noise will be monitored

Updates on progress and upcoming activities will be posted to outside.transform66.org/route28 as demolition proceeds. Visit the web page to sign up for project updates and e-mail notifications about traffic pattern changes and lane closures.
